ABOUT US

The Minnesota Land Trust is a conservation non-profit organization based in Saint Paul, Minnesota, that works with private landowners to conserve land through voluntary land conservation agreements.

The Land Trust's mission is to protect Minnesota's most vital natural lands to provide wildlife habitat, clean water, outdoor experiences, and scenic beauty for generations to come.

Since 1991, the Land Trust has partnered with hundreds of Minnesota landowners to permanently protect over 80,000 acres of natural land and 540 miles of fragile shoreline throughout the state. In addition, we've restored over 9,000 acres of critical habitat.

ABOUT THE EVENT

Now in its 14th year, the Minnesota Made Gala is the Land Trust's premier fundraising event in celebration and support of our work.

The elevated and energized evening attracts around 425 influential community members, business leaders, educators, and philanthropists to historic Nicollet Island Pavilion alongside the Mississippi River.

The evening opens with an outdoor cocktail hour followed by a seated dinner, program, live auction and giving moment.
